The screenshot shows the Google Cloud Data Analytics console. On the left is a sidebar with a search bar and a list of resources under 'data-analytics-mate'. The main area displays an 'Untitled query' with a SQL script. Below the query editor, a status bar indicates 'Query completed' and 'Using on-demand processing quota'. The 'Query results' section is active, showing a table with 6 rows and 9 columns. The columns are: continent, revenue, revenue_from_m..., revenue_from_de..., revenue_from_tot..., verified_account, account_cnt, session_cnt, and session_cnt. The rows represent data for Americas, Europe, Africa, Asia, Oceania, and a '(not set)' category.

Row	continent	revenue	revenue_from_m...	revenue_from_de...	revenue_from_tot...	verified_account	account_cnt	session_cnt	session_cnt
1	Americas	17665280.0	6780364.300000...	10497307.40000...	55.25281050546...	11152	15520	193179	
2	Europe	5934624.200000...	2311532.800000...	3493992.899999...	18.56209844076...	3686	5170	65135	
3	Africa	331230.9999999...	130677.799999...	193643.2	1.036012091319...	193	266	3620	
4	Asia	7601298.300000...	3028054.399999...	4381094.399999...	23.77506014993...	4772	6664	83113	
5	Oceania	345230.1999999...	111242.5	246357.7	1.142353333681...	195	272	3703	
6	(not set)	74067.4	22354.0	51643.4	0.231665278831...	38	53	795	

At the bottom of the results section, it says 'Results per page: 50' and '1 - 6 of 6'. Below the results is a 'Job history' section with a 'Show' link.
